ICMB2026
International Conference of Medical Breakthrough

International Conference of Medical Breakthrough

Call For Paper Guideline

UMS

The 12th 2026 ISETH

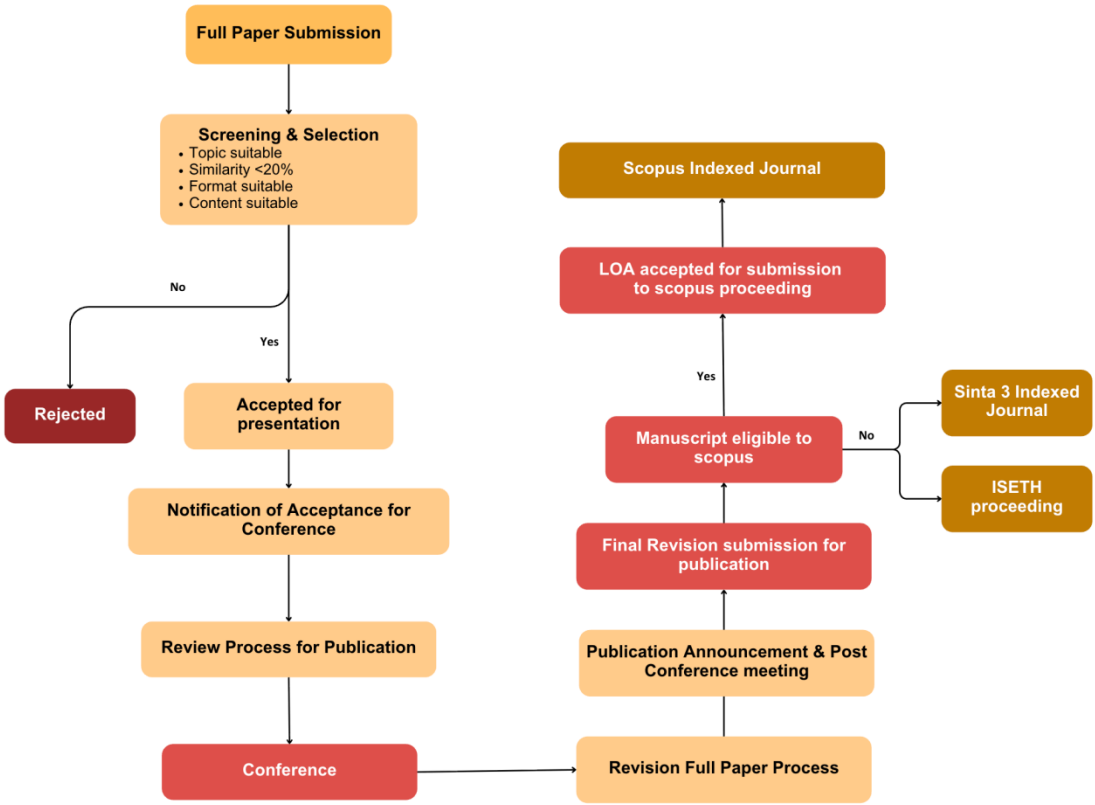

A. TOPIC/SUB THEME

Track	Sub-theme	Scope
1	**Biomedical Innovation**	Biomedical innovation and digital biomarkers
2	**Clinical & Chronic Disease**	Case Report, Digital health applications for chronic disease management
3	**Digital Health, Health Management and AI in Medicine**	Artificial intelligence for diagnosis, prognostics, and personalized medicine
4	**Healthcare, Community & Public Health**	Health data management, Community medicine and digital public health

B. GENERAL REQUIREMENTS

1. Participants are clinicians, academics or students of domestic and overseas institutions.
2. Each participant is welcome to choose one of the available topics.
3. The submitted work is original work that has never been published and has never been included in previous scientific events/conferences.
4. Call for Paper participants are registered as participants of the 2026 International Conference of Medical Breakthrough (ICMB) Symposium.
5. Participants must follow the rules set by the committee.
6. The decision of the Call for Paper committee is absolute or final
7. Articles may contain scientific research results (original research), Case report or review results (systematic review)

C. MECHANISM DAN TIMELINES

Timeline	Phase	Notes
September - December 2026	Registration	Registration for Presenter: Until Nov 21th, 2026 Registration for Participant: Sept-Desember 12th , 2026
Sept – Nov 21th, 2026	Full Paper Submission	The registration and full paper submission steps can be accessed on the page icmb.ums.ac.id
Nov 22-29th, 2026	Screening & Selection Process	First round review, can be accessed on the page icmb.ums.ac.id
Nov 30th, 2026	Notification of Acceptance for Conference	can be accessed on the page icmb.ums.ac.id
Dec 1-12th, 2026	Review Proccess	Second round review, can be accessed on the page icmb.ums.ac.id
Dec 13-26th, 2026	Revision Full Paper	Full Paper Revision submission in round 2
Dec 19th, 2026	Conference	further notice directly from the committee
Dec 29th, 2026	Publication Announcement & Post conference meeting	further notice directly from the committee
Jan 2nd, 2027	Letter of Acceptance ISSN Proceeding	further notice directly from the committee
To be announced	Submission to Scopus/SINTA Indexed Journal	further notice directly from the committee

D. FACILITY

1. E-Certificate
2. Online Proceeding
3. Professional Credit Units Kemenkes (SKP Kemenkes) (*on confirmation)*

E. REGISTRATION FEE

Call for paper ICMB payment **ONLY** via Account Number in the name of Universitas Muhammadiyah Surakarta (Bank BNI, Account Number: 0028034971) Swift code: BNINIDJAXXX

Conference Fee(s)	Indonesian	Overseas
General Presenter (postgraduate/others)	Rp 600,000.-	*60 USD* *(Grant available)*
Undergraduate Students Presenter	Rp 300,000.-	*60 USD* *(Grant available)*
Participant (without paper)	Rp 100,000.-	10 USD
Publication Fee(s)	Indonesian	Overseas
*Scopus-Indexed Journal	*To be announced*	*To be announced*
**SINTA 3 Indexed Journal - Biomedika Journal - Qanun Medika Journal	 Rp 750,000.- *To be announced*	 70 USD *To be announced*
**ISETH (ISSN Conference Proceeding)		
• non UMS	Rp 300.000	30 USD
• UMS	Free	Free

Publication fee:

** Scopus-Indexed Journal fee: fees that must be paid by participants who pass the paper selection to be submitted to the publisher. Payment is made after official notification from the committee via e-mail (post conference meeting). The committee is not responsible and accepts payments other than those specified..*

*** SINTA-Indexed Journal fee: All payments for SINTA publications will be communicated directly by the publisher.*

No Refund and Cancellation Policy

All payments for ICMB 2026 registration are final. No refunds or cancellations will be accepted under any circumstances.

F. GRANT TERMS

1. Eligibility Criteria

a. The grant is exclusively available to overseas presenters affiliated with international institutions or organizations.

b. Applicants must be registered as presenters at ICMB 2026.

c. Applicants must submit a full paper that complies with the official ICMB 2026 Author Guidelines and Paper Template.

2. Grant Coverage

a. The grant provides free registration for participation in the ICMB 2026 conference.

b. The grant covers conference registration fees only and does not include publication fees or other associated expenses.

c. Any additional costs beyond the conference registration fee shall be the responsibility of the applicant.

3. Application Requirements

a. Applicants must create an account on the Leconfe submission platform and select the Author role.

b. Applicants must provide the required submission details, including the paper title, paper type, registration Order ID, and selected conference track.

c. Applicants must submit their abstract and full paper through the official ICMB 2026 submission platform.

d. All authors and co-authors must be properly listed with their respective institutional affiliations and contact information.

4. Grant Application and Selection Process

a. Eligible presenters must complete the paper submission process to be considered for the grant.

b. All grant applications will be reviewed and evaluated by the ICMB 2026 organizing committee.

c. Grant recipients will be selected based on eligibility and the committee's evaluation.

d. Submission of a full paper does not automatically guarantee grant approval.

5. Grant Approval and Notification

a. Successful applicants will be notified through their registered email address or other official communication channels.

b. Approved grant recipients will receive free registration for the ICMB 2026 conference.

c. Grant recipients must follow the instructions provided by the organizing committee regarding grant confirmation and registration.

B. ARTICLE WRITING SYSTEMATICS

1. Title

a. The article title must be informative, concise, and relevant to the research topic.

b. The title must not exceed two lines.

c. The title must be written in sentence case (not entirely capitalized).
d. The title should clearly represent the main subject and scope of the manuscript.

2. Author and Affiliations

a. Authors' names must be written below the article title, without academic or professional titles.
b. Each author's name must be followed by a superscript number corresponding to their institutional affiliation.
c. Institutional affiliations must be written in full, including the faculty or department, institution, and complete address.
d. The corresponding author must be identified with an asterisk (*) after their name.
e. The corresponding author's email address must be provided in the designated section of the manuscript

3. Abstract and Keywords

a. The abstract must be written in English and consist of a maximum of 250 words.
b. The abstract must be written in one paragraph using the following structured components: Background, Methods, Results, Conclusion, and Keywords.
c. For literature reviews, methods can be omitted.
d. Keywords contain the main words consisting of 3-5 words.
e. The abstract must be concise, informative, and representative of the entire manuscript.
f. The abstract must not exceed the maximum word limit of 250 words

4. Introduction

The introduction section is written as a whole without subtitles in the form of paragraphs with a length of 15-20% of the entire length of the article. This section contains:

a. The introduction must provide a clear background and rationale for conducting the research.
b. It should explain the research problem, supported by relevant scientific literature and previous studies.
c. It must identify the research gap and explain the significance or urgency of the study.
d. The research objectives and expected contributions should be clearly stated.
e. Relevant theories and previous research findings should be incorporated to establish the scientific foundation of the study.
f. The introduction may be organized into sections and subsections according to the manuscript's structure.
g. The total length of the manuscript must be between 3,000 and 8,000 words, excluding the abstract and references.

5. Main Body of the Manuscript

a. The main body must be organized into sections, subsections, and sub-subsections

according to the content and requirements of the research.

b. Each section should have a clear and relevant heading that reflects its content.

c. The discussion must present a logical explanation of the research findings and relate them to relevant scientific literature.

d. Relevant tables, figures, diagrams, and equations may be included to support the explanation and presentation of research findings.

e. All tables and figures must be cited and referred to in the manuscript text.

f. **Method**

The methods section is 15-20% of the overall length of the article. This section contains:

1) Research design (research type and design).
2) Research instruments.
3) Data collection techniques, data sources, variables, and operational definitions.
4) Data analysis techniques/statistical tests.
5) Summarized research procedures (if possible).
6) For literature review, the method section can be removed.

g. Result and Discussions

Results and discussion are presented at 60-70% of the overall length of the article. This section contains:

1) For quantitative research, this section describes the results of the data analysis that includes statistical values, such as mean, standard deviation, p-value, OR/RR/RP, or other statistical values, along with the interpretation of these values.
2) The statistical values described must be in accordance with the statistical test specified in the method.
3) For qualitative research, this section describes the results of interviews/focus group discussions, along with their interpretation.
4) For literature review, this section explains the results and comprehensive discussion of the title raised.
5) Can be presented with tables, graphs, or diagrams and then given a conclusion to clarify the results verbally. Tables and Figures are presented in the center, as shown in the template
6) This section also contains a discussion that answers the research problem. The discussion contains an explanation of the results, the results of other similar studies, interpreting the findings, integrating the findings of the research into the existing body of knowledge, developing new theories, or modifying existing theories, and the limitations of the research if any.

h. Conclusions

1) Contains conclusions that contain answers to the objectives/problems of research/literature review writing.
2) Written without re-loading statistical values.
3) Written in the form of an essay, not in numerical form

6. Formatting of section and Text

a. Section headings must use 12-point Arial, bold, with 18 pt spacing before and 8 pt spacing after.
b. Subsection headings must use 10-point Arial, bold, with 18 pt spacing before and 6 pt spacing after.
c. Sub-subsection headings must use 10-point Arial, italic, with 12 pt spacing before and 6 pt spacing after.
d. Section, subsection, and sub-subsection headings must not use numbering.
e. Authors are required to follow the formatting and layout provided in the official proceeding template.

7. Tables and Figures

a. All tables and figures must be presented clearly, legibly, and in a simple, formal style.
b. Tables must be numbered consecutively and provided with titles placed above the tables.
c. Figures must be numbered consecutively and provided with captions placed below the figures.
d. All tables and figures must be explicitly cited in the manuscript text before or when they are presented.
e. Tables should avoid unnecessary vertical lines.
f. Figures must not have borders, and all information within the figures must be clearly readable.
g. For graphs containing multiple comparison curves, different markers should be used to distinguish each curve clearly.

8. Equations and Mathematical Expressions

a. All equations must be centered and numbered consecutively.
b. Equation numbers must be placed on the right-hand side of the equation.
c. Variables must be written in italics, while vectors must be written in bold.
d. The order of brackets must follow the convention {[()]}, except where brackets have specific mathematical significance.
e. All equations must be appropriately referred to in the manuscript text.

9. Acknowledgments

a. An acknowledgment section may be included when necessary.
b. This section should express gratitude to individuals, institutions, organizations, or other

parties who have supported the research.

c. Acknowledgments may also include recognition of research funding agencies, sponsors, or grant providers.

10. References

a. The manuscript must contain at least 20 references.

b. All references listed in the bibliography must be cited in the manuscript text.

c. All in-text citations and bibliography entries must follow the APA author–year referencing style.

d. Authors are encouraged to use reference management software, such as Mendeley, Zotero, EndNote, or other equivalent applications.

e. Authors must ensure that all references are complete, accurate, and consistently formatted according to APA style.

11. General Manuscript Requirements

a. The manuscript must contain a minimum of 3,000 words and a maximum of 8,000 words, excluding the abstract and references.

b. Authors are encouraged to prepare their manuscripts in English. Authors who are not proficient in English may initially write their manuscripts in Indonesian and have them translated into English by a competent translator.

c. Authors must use the official proceeding template as the primary reference for manuscript preparation.

d. All manuscript components must follow the prescribed formatting, layout, citation, and reference requirements

C. PRESENTATION TERMS

1. Slide Structure & Number

1) Maximum of 10–12 slides for a 7-minute presentation.
2) Minimum font size of 18 pt and easy for the audience to read.
3) Use the provided design (attached template).
4) It is recommended to use more points, graphs, tables, and images than long texts.
5) The presentation content includes:
   i. Title & Author Identity (include affiliation & funding acknowledgement, if any)
   ii. Background & Objectives
   iii. Research Methodology
   iv. Results
   v. Discussion/Implications
   vi. Conclusion & Recommendations
   vii. Acknowledgement/Closing.

2. **Time Allocation (Total: 10 minutes/presenter)**
    1) Presentation: 7 minutes
    2) Discussion/Q&A: 3 minutes.
3. **Technical Instructions for Oral Presentation**
    1) Oral presenter are individuals who have passed the selection process (*first author*), submitted a paper in response to the Call for Papers, and received a Notification of Acceptance for the Conference.
    2) All participants required to wear neat and proper attire.
    3) Presentation language: English.
    4) Each participant must arrive on time in the designated Zoom Cloud Meetings breakout room no later than 10 minutes before the event begins.
    5) Participants are required to attend the event from start to finish.
    6) The presentation session will be led by a moderator.
    7) The moderator will call on presenters in the predetermined order.
    8) Once a presenter is called, the submitted presentation video will be played.
    9) After the video finishes playing, the moderator will open a Q&A session for the presenter, lasting a maximum of 3 minutes.
    10) The moderator is responsible for managing the presentation and Q&A session to ensure they stay within the set time limits.
    11) If the presentation or Q&A session exceeds the set time limit, the moderator has the right to stop the session and move on to the next item on the agenda.
    12) Presentations will be delivered via a video presentation that has been submitted.
    13) When creating the video, participants must position themselves as if they are giving a live presentation in front of the judges. The audio must not be dubbed, and the video must not be edited together from multiple clips (one-take shot).
    14) Video presentation terms:
        i. Presentation video format: MP4, maximum 7 minutes, minimum resolution 720p (HD), landscape orientation. Recommended to use a video recording with the Zoom app's screen-sharing feature .
        ii. The presenter (first author) must appear in the video (face recording alongside the slides).
        iii. Use a neat and professional background
        iv. Video file size: ≤100 MB
        v. Link for submitting video presentations: https://ums.id/videoicmb26
4. **File Name Format**
    1) PPT: [OralID]_[PresenterName]_[ShortTitle].pdf
    2) Video: [OralID]_[PresenterName]_[ShortTitle].mp4
